DETAILED ACTION

1. Applicant's drawings filed 4/11/05 has been approved by the examiner.

Allowable Subject Matter

2. Claims 4-6, 8-12, and 26-27 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 26, the closest cited prior art [Reuman (US Patent No. 6,069,982)] fails to teach or suggest a method for estimating noise in digital image comprising: accumulating statistical noise data in a plurality of default statistical tables, wherein each default statistical tables corresponds to a unique source identification tag associated with a particular film type, and wherein the statistical noise data within a given default statistical table is related to a particular film type; utilizing pixel image data from a digital image to calculate a statistical noise data table corresponding the digital image; utilizing a source identification tag corresponding to the digital image to select a default statistical table from the plurality of default statistical tables; and utilizing the selected default statistical table in conjunction with the statistical noise data table corresponding to the digital image to generating a resultant calculated noise characteristic table.

Dependent claims 4-6, 8-12 and 27 are also allowed for the same reasons as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
